

FACT TELLER

INSTRUCTIONS

1. Cut out the large square. Place it flat, face up.
2. Fold opposite corners together
3. Crease and unfold.
4. Repeat with other two corners. Turn it over
5. Fold each corner into the centre on the lines. Crease firmly.
6. Turn it over. Fold each corner to the centre. Crease firmly.
7. Fold in half. Crease and unfold. Fold in other direction
8. Put your thumbs and pointer finger in each of the four corner pockets.

YOU ARE NOW READY

9. Ask a friend to choose a category- either a colour or animal
10. Spell out the word, opening and closing the pockets as you spell each letter.
11. Lift the flap and read the fact. Repeat with another friend. Finally find the middle square.

What you should know BEFORE the first puff

- **smoking makes you sick**
- **smoking makes you stink**
- **smoking costs you money**
- **50 Australians die every day of every year from illnesses related to smoking**

So why would anyone want to smoke?

SMOKING means **INHALING** more than 4000 chemicals including poisons like toilet cleaner, rocket fuel, rat poison, solvents, as well as nicotine and black, tacky tar.

Not COOL
rotten teeth effect your health and your looks

TEETH DECAY AND ROT AWAY

CIGARETTES COST!
Leaving you an empty wallet

Nice Don't SMOKE

PETS and passive smoking - CATS lick their fur, swallow the chemicals and become ill. DOGS may get cancer like people do

Pelicans don't SMOKE

Fish don't SMOKE
